# MEDISEAL FORMAL TRAINING.

As unique as your product.

INDIVIDUAL TRAINING

# AS UNIQUE AS YOUR PRODUCT.

The pharmaceutical industry imposes very exacting demands on its suppliers. Packaging systems must be always available and they must function smoothly and operate economically. Mediseal is one of the leading manufacturers of packaging machinery for the pharmaceutical industry: purchasing a Mediseal machine assures you not only of the highest quality but also gives you full access to worldwide service from our experts.

Take the time to learn about our professional formal training. Whether you have general questions or specific requests, we are always there for you.

Speak to us!

**Advantages:**

- **Specialized training:** Choose out of our standard courses or contact us for a course tailored to your specific groups and tasks.
- **Active learning concept:** We perform active, hands on training with real tasks at the machine. Therefore, the number of participants is restricted to 4, with exceptions to 6.
- **OEE enhancement:** Transferring our experience to your employees can increase your output up to 35%!

TAILOR MADE

# TRAINING COURSES FOR YOUR PRECISE NEEDS.

Your dedicated and trained personnel are the cornerstone of your productivity! To ensure that you stay ahead, despite new or growing challenges, Mediseal trains your workforce individually on their specific tasks – either on your premises or at our Training Center. Experienced trainers provide your personnel on an ongoing basis with the necessary knowledge and skills they need in the real working environment.

Choose from our wide range of courses or let our experts tailor the courses to your precise needs!

Depending on the target group, contents and duration vary. Nevertheless, flexibility to adapt on-site requirements if necessary is one key factor for successful training.

### Modular structure of our training courses

Three stages of training which build on each other:

- Intensive – a solid basis of knowledge
- Advanced – the next step
- Expert – the highest level

Training for all your employees:

- Operators
- Mechanic engineers
- Electricians / electronic engineers
- Maintenance technicians
- Senior managers in packaging and warehousing
- Quality assurance personnel

EXPERT

ADVANCED

INTENSIVE

EXAMINATION AND CERTIFICATION

# PROOF OF YOUR KNOWLEDGE.

Formal courses with final examinations and corresponding certification ensure the highest level of reliability for your production.

What you could expect from your individual training by Mediseal Training Center specialized training team for all purposes. A training schedule with determined contents and full day dedicated time for your training.

All training classes are given by didactical experts who will validate knowledge and skills. With an examination and certification as proof of knowledge and participation for all attendees we will perfect your individual training by Mediseal Training Center.

**The benefit to you:**

- Increased OEE
- Well-trained and motivated personnel
- Higher productivity and quality
- Higher availability of equipment
- Faster solutions to problems
- Proof of qualification through certification
