OPTIMA life science GmbH
Steinbeisweg 20
74523 Schwäbisch Hall
Germany

Design, sale, manufacturing and servicing of combined manufacturing and packaging machines for medical and pharmaceutical products. Modular liquid coating systems, for example immunoassays, which may contain functions like dispensing, incubing, coding, code identification, ionization, suction and packaging. In the converting area, modular systems for the manufacturing and packaging of modern wound dressings are produced. Typical functions are unwinding, rewinding, cutting, web edge control, camera systems and the packaging of four-edge seal pouches.

278653
OPTIMA nonwovens GmbH
Steinbeisweg 20
74523 Schwäbisch Hall
Germany

Design, sale, manufacturing and servicing of packaging machines for sanitary nonwovens products. After infeeding of the product from the converters to the pallet ready to ship, the machines build product formations and pack them into plastic bags or folding boxes (primary packaging). Machines with grouping units for multipacks made of plastic or packed into cartons (secondary packaging). Palletizers form units ready for shipment (tertiary packaging) out of the secondary packaging units.
